Introducing the
GRAiT
S Y S T E M

The GRAiT ™ ADA Accessibility Inspector tool streamlines the inspection process, automates reporting and serves your organization with a mobile platform to remediate non-compliant issues; providing your organization the tools your team needs to bring your organization back into compliance.

How does the GRAiT™ System benefit your organization?

Accelerate Productivity

- Complete inspections up-to 65% faster

- Eliminate paper, spreadsheets and outdated applications

- Assign, schedule and manage inspections beginning to end

- Remediation platform built in to same comprehensive tool
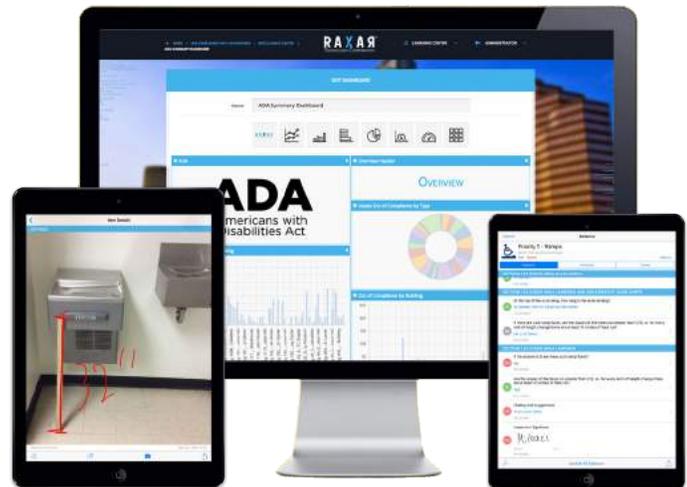

Eliminate Redundancy

- Collect notes, photos, and remediation pricing in the field

- Tag non-compliant assets on GPS or Plan Set maps for easy reference

- Automate reporting and access real-time inspection results anywhere

Deliver Solutions

- Eliminate paper reports that highlight problems

- Utilize the same tool to bring findings back in compliance

- Open up and assign work orders directly against non-compliant asset

---

X Reduce costs, save time, and gain transparency on the road back to compliance.

X Easily capture photos; draw markups; leverage voice-to-text documentation and reference non-compliant assets on map views

X Prioritize remediation planning with assigned risk levels

X Perform and report inspections in a fraction of the time
